

NOTICE OF WORK

WHERE:

Work will be taking place to repair portions of the curb and sidewalk, and to resurface the road on the following streets:

- Orsi Avenue
- Evans Avenue
- Patrician Court
- Brown's Lane (Bond Head)

WHEN:

The Contractor is scheduled to begin work on **Monday, May 9th**, weather permitting. It is expected that the entire project will take approximately eight (8) weeks to complete once work begins.

WHAT:

The work involves the removal and replacement of broken curb and sidewalk, grinding the existing asphalt road surface and the installation and compaction of a new hot-mix asphalt road surface.

As part of this project, work will also include the widening of the roadway at the median islands on Orsi Avenue and on Patrician Court.

HOW YOU MAY BE AFFECTED:

Access to residential driveways may be temporarily obstructed during the curb and sidewalk repairs, as well as during the asphalt paving process. Affected homeowners will be notified in advance so that alternate arrangements can be made. Following the paving process, homeowners are requested not to park on the newly paved road for 24-hours to allow the asphalt enough time to consolidate and cool.

Please note that garbage collection and school bus pick-up and drop off will not be impacted by the proposed works.

We apologize for any inconvenience you may experience during this time.
