

NOTICE OF ROAD MAINTENANCE ACTIVITIES

GRAVEL RESURFACING

WHAT:

Work is being undertaken to improve the condition of gravel roads. This will include the application, grading, compaction and watering of 100mm of gravel to the existing road surface. Upon completion, the road will be treated with dust suppressant.

WHERE:

Wanda and Day Streets from Canal Road to Devald Road.

WHEN:

Work is tentatively scheduled to begin on Friday, May 24, 2019 and is expected to take approximately one week to complete.

HOW YOU MAY BE AFFECTED:

The road will remain open during this process. Residents may encounter truck traffic and slight delays.

Please be alert for heavy construction equipment working on site. Equipment may travel in reverse at times, and may be encountered travelling in the oncoming lanes within the localized work zone for the spreading, grading and compaction process. Please remain well back and follow the direction of crews providing assistance through the work zone.

Upon completion of the granular resurfacing, driveways will be graded to match the road elevation where needed, and dust control measures will be applied to the fresh gravel.

We apologize for any inconvenience you may experience during this time.
