

NOTICE OF ROADWORKS

ROAD MAINTENANCE – SURFACE TREATMENT AND SLURRY SEAL

WHERE:

- **Line 13** – County Rd 4 to 1,400m east of Sideroad 20
- **Sideroad 10** – Nottingham Forest Dr south to Line 4
- **Line 4** – Sideroad 10 to end of hard top
- **Tornado Drive** – Canal Rd to Simcoe Rd
- **Line 9** – Grandview Cres to Artesian Industrial Pkwy

WHEN:

Work will begin on **Wednesday, June 5**, and is expected to take one week to complete. Slurry sealing of the above locations will take place approximately 4 to 6 weeks after completion of the surface treatment.

WHAT:

Work will include minor repairs of the existing road surface and the installation of surface treatment (tar and chip) to restore the driving surface of the roadway. A slurry seal will follow the surface treatment seal the finished surface and complete the resurfacing project.

HOW YOU MAY BE AFFECTED:

Lane restrictions will be in place during the work and some delays to the normal flow of traffic can be expected while work is being done. Residents living on these sections of roadway will still have access to their driveways. Some dust may be present during and after granular application, but will dissipate as the granular material settles into the asphalt layers.

We apologize for any inconvenience you may experience during this time.
