

# NOTICE OF ROADWORKS

## ROAD MAINTENANCE – SURFACE TREATMENT

### WHERE:

- Hillsview Road – From River Road to the end
- Fraser Street – Canal Road to Tornado Drive
- Line 10 – County Road 27 to approximately 170 metres east

### WHEN:

Work will begin on **Thursday, May 5<sup>th</sup>**, and is expected to take three to four weeks to complete, weather permitting.

### WHAT:

Work will include pulverizing of the existing road surface on Hillsview Road and Fraser Street, the installation, grading and compaction of additional granular material, and the installation of new surface treatment (tar and chip).

Work will also include minor repairs of the existing road surface on Line 10 and the installation of surface treatment (tar and chip) to restore the driving surface of the roadway.

### HOW YOU MAY BE AFFECTED:

Traffic will be restricted to local traffic during the work and some delays to the normal flow of traffic can be expected while work is being done. Residents living on these sections of roadway will still have access to their driveways.

Some dust may be present during and after granular application, but will dissipate as the granular material settles into the asphalt layers.

We apologize for any inconvenience you may experience during this time.
