

# NOTICE: SEWER FLUSHING

---

## **NIGHT WORK: Centre St, Simcoe Rd, Luxury Ave, Dissette St, Bridge St, and 8<sup>th</sup> Line/County Rd 4 Intersection**

### **PLEASE BE ADVISED:**

The Town of Bradford West Gwillimbury Wastewater Division is completing yearly sewer flushing.

### **WHEN:**

Sewer flushing is completed from May to November during normal operating hours of 8AM to 4PM. The week of **October 15<sup>th</sup>** night work will be conducted on **Centre St, Simcoe Rd, Luxury Ave, Dissette St, Bridge St, 8<sup>th</sup> Line and County Road 4 Intersection.**

### **WHAT IS SEWER FLUSHING:**

Sewer flushing is required for the maintenance of the sewer system. The Town of BWG must clean its sewer system regularly to ensure it functions properly in order to protect public health and the environment.

### **HOW YOU MIGHT BE AFFECTED:**

During the cleaning process, air pressure is created inside the sewer pipe. Normally the pressurized air escapes with no impact, in some instances the air can only escape through the service connection plumbing vents between your house and the Town's sewer system without incident.

However, if the passage is improperly vented, air pressure may escape through a toilet, floor drain or the nearest exit it can find. This can result in the release of unpleasant odors.
