

NOTICE:

Line 8 & 10th Sideroad Environmental Assessment

Archaeological Investigation Work Notice

May 14, 2019

WHAT:

As part of the Line 8 & 10th Sideroad Environmental Assessment project, the Town of BWG will be completing Stage 2 archaeological investigations.

WHEN:

Archaeological Research Associates Ltd. will be on site between May 14, 2019 and May 24, 2019, weather permitting.

WHERE:

The work will take place throughout the Line 8 corridor between Barrie Street and Sideroad 10 and 10th Sideroad between Reagens Industrial Parkway and Line 8. All investigative work will take place off the road, along the boulevards and within the Town's right of way. Every effort will be taken to minimize disruption as much as possible. The roads will be open and access to homes facilitated at all times.

WHY:

The Archaeological investigations are planned in order to assess if any potential archaeological sites are present along the Line 8 and 10th Sideroad corridor.

The following Stages outline the extent of work required for the Archaeological Assessment.

Stage 2 – Consists of land surveys to identify all archaeological potential. This stage involves hand digging holes approximately 1-2 feet deep in potential identified archaeological areas to determine if artifacts or areas of archaeological importance are present. All disturbed areas will be restored to their original condition and all holes dug will be filled.

ADDITIONAL INFORMATION:
