

# NOTICE: Road Closure

---

March 21, 2017

## OPA 15/16 Linear Works

### WHAT:

To prepare the “employment lands” located in the area of Highway 400 for new development, the Town is reconstructing roads and installing sewers and watermains. This is referred to as the OPA 15/16 Linear Works Project.

Road closures will be taking place as described below in order to conduct this work.

### WHEN/WHERE:

**Line 6** will be closed to through traffic between Sideroad 5 & County Road 27 from **Monday, March 27 until fall 2017**.

**Sideroad 5** will be completely closed to all traffic in both directions between Line 6 & County Rd 88 for one day on **Saturday, March 25** between 8:00am and 5:00pm.

### HOW YOU MAY BE AFFECTED:

**Line 6** – In order to maintain the safety of the travelling public and the construction crews on site, Line 6 will be closed between Sideroad 5 and County Road 27 except to local traffic.

Residents will have access to their driveways from either County Rd 27 or Sideroad 5 depending on the location of the construction crews. There will be ongoing communication with residents on progress and location of crews during this time.

Traffic from the surrounding areas will NOT be permitted to use this portion of Line 6 as a through route. Instead, traffic will need to follow the detour signs posted around the closure area.

Garbage collection will be conducted by the Town’s contractor. Please label all of your containers with house numbers so they can be collected and returned by the end of the day.

School bus stops will be modified and these changes will be communicated to you through the normal channels.

**Sideroad 5** – Through traffic will not be possible to allow for watermain works. All traffic will need to follow the temporary detour.

We apologize for any inconvenience this may cause.

## CONTACT:

If you have any questions or concerns please contact the Town or the Contract Administrator:
