

NOTICE:

Back Street Reconstruction

May 2, 2017

Temporary Water Shutdown

WHERE:

From house numbers 39 to 127 Back Street.

WHEN:

The water will be shut off for a short period of time between:

Wednesday May 3 and Friday May 5, 2017

Shutdown will take place only during the hours of **9:00am to 5:00pm**.

WHAT:

Water service to your area will be shut down for a short period as we switch over to a temporary system. This is part of the Back Street Reconstruction project in which we are removing the old watermain and installing a new one.

HOW YOU MAY BE AFFECTED:

- Crews will knock on doors immediately prior to the shutdown to inform residents who are at home that the switchover is about to begin. We will make all efforts to keep the disconnection period as brief as possible.
- Our Contractor, Somerville, may need to access your property to shut down the water meter. They will inform residents who are at home at the time of their visit.

The temporary watermain will be tested on a weekly basis to ensure it complies with all regulations outlined by the Ministry of Environment and Climate Change. We thank you again for your continued patience and cooperation and we sincerely apologize for any inconvenience.
