

# NOTICE OF STUDY COMMENCEMENT AND PUBLIC INFORMATION CENTRE I

## Town of Bradford West Gwillimbury Water & Wastewater Master Plan

### Municipal Class Environmental Assessment

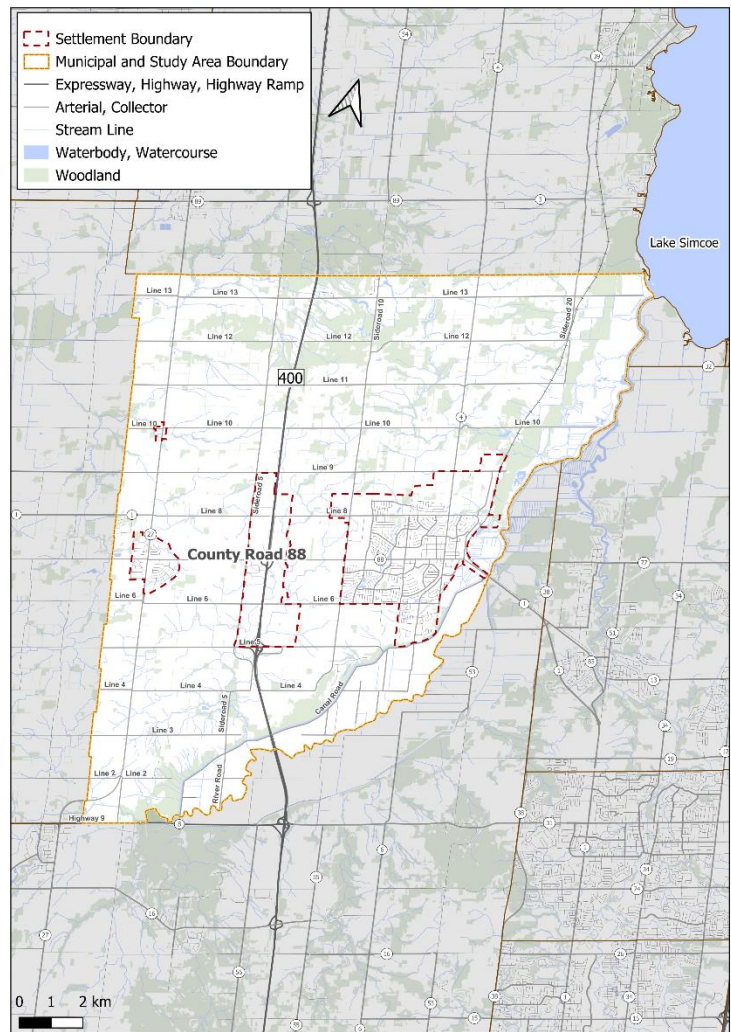

[www.townofbwg.com](http://www.townofbwg.com)

May 12, 2025

#### The Study

The Town of Bradford West Gwillimbury (BWG) is growing. To enable growth and meet population and employment targets as defined in the Town's Official Plan, a robust long-term strategy for water and wastewater infrastructure must be established.

The Town is initiating a Water and Wastewater Master Plan to provide a framework for servicing growth and intensification that is transparent, sustainable, reliable, environmentally friendly, cost-effective, flexible and maximizes the use of existing infrastructure. The study will identify current system capacities and future needs and determine the preferred strategy to service growth. Finally, the study will provide capital planning recommendations to form the basis for future development charges. The Study Area encompasses the entire Town of Bradford West Gwillimbury as shown on the map.

#### The Process

This Study follows Approach #2 for Master Plan projects as established by the Municipal Engineers' Association (MEA) Class Environmental Assessment (EA) process (October 2000, as amended in 2007, 2011, 2015, 2023 and 2024). As such, the Master Plan will satisfy Phases 1 and 2 of the Class EA process.

#### Public Information Centre (PIC) 1

As part of the Class EA study, an in-person, open-house style Public Information Centre (PIC) 1 will be held:

Date: Monday, May 26<sup>th</sup>, 2025  
Time: 5:30 – 7:30 PM

Location: Bradford Community Hub, 177 Church St, Bradford

PIC 1 will present the study background and objectives, the Town's existing water and wastewater infrastructure, the project schedule and the approach to evaluate servicing alternatives. PIC 1 is open to all members of the public. A copy of the presented materials will be made available on the Town's website following the event. Questions can be submitted in person at the PIC or afterwards to one of the project team members noted below.

### Stay Engaged, Get Involved!

Your input is important to the Master Plan Class EA process. In addition to PIC 1, as described above, a second PIC will be held following the evaluation of servicing strategies to present the preliminary preferred strategies to the public and seek your feedback. If you would like more information or wish to be added to the study distribution list, please visit the Town's website [www.townofbwg.com/waterwasterwaterMP](http://www.townofbwg.com/waterwasterwaterMP) and/or contact one of the following members of the
